ST. LOUIS, February 5, 2025 – Gateway Studios & Production Services (GSPS) will open its cutting-edge rehearsal and production studio complex in May 2025. Situated on a sprawling 32-acre campus in Chesterfield, MO, within the Greater St. Louis area, this state-of-the-art facility redefines production and rehearsal spaces for touring professionals and the entertainment industry at large. GSPS is now accepting bookings for the most advanced rehearsal destination in the nation.

Experience an in-depth 3D tour of Gateway Studios, showcasing its highly developed design and innovative features by visiting gspss.com/studios.

"This facility is designed to set a new standard for production and rehearsal spaces, both in size and innovation," says Trey Kerr, CEO of Gateway Studios & Production Services. "Our goal has always been to create a world-class environment where artists and their teams can prepare to bring their visions to life. Centrally located in the heart of the country, we offer unmatched access and flexibility for artists that strive to deliver unforgettable performances."

A Landmark in Rehearsal and Production

The GSPS complex boasts three purpose-built studios that cater to the rigorous demands of live music tours, motion picture and television production, and corporate events. Designed by touring professionals for touring professionals, the facility represents the largest and most advanced tour rehearsal destination in the United States.

- **Studio 80:** The flagship space is the largest dedicated rehearsal studio in North America, offering an unmatched 52,500 square feet of rehearsal space, an 80-foot grid height, and a 2,000,000-pound grid weight capacity. Complete with a vast 10,800-square-foot receiving/staging area with six loading docks, a drive-in ramp, shore power for six buses, and 15,000-square-feet of dedicated dressing rooms with ensuite private bathrooms, offices, and a catering lounge.

- **Studio 75:** Featuring 15,000 square feet of rehearsal space, a 75-foot grid height, and a 1,000,000-pound grid weight capacity, Studio 75 is perfect for mid-size productions. Amenities include a 4,000-square-foot receiving/staging area, three loading docks, a drive-in ramp, and 8,000-square-feet of dedicated dressing rooms with ensuite private bathrooms, offices, and a catering lounge.
- **Studio 65:** With 12,500 square feet of rehearsal space, a 65-foot grid height, and a 800,000-pound grid weight capacity, Studio 65 offers a more intimate yet fully equipped environment. Highlights include two dedicated loading docks, a drive-in ramp, and 5,683-square-feet of dedicated dressing rooms with ensuite private bathrooms, offices, and a catering lounge.
- **Studio Support:** The complex includes 15,700 square feet of open space with a 48-foot ceiling with rigging points at 42 feet. Additional features include a 3,400-square-foot receiving/staging area, one dedicated loading dock with leveler and truck power, a drive-in ramp, and two offices with dedicated restrooms.

Beyond Rehearsals: A Fully Immersive Production Experience

Every aspect of the GSPS complex has been meticulously designed to support seamless production workflows. Key features include:

- Dedicated loading docks with levelers, truck power, and drive-in ramps
- Pre-visualization lighting suites to optimize production planning
- Artist lounges and in-house catering for ultimate comfort
- Flexible spaces for corporate events, television, and film production

The facility is equipped with redundant high-speed fiber-optic Internet access from two independent service providers, with capabilities up to 100 GB when needed. Additionally, a robust 5.5 MW independent backup generator system ensures an uninterrupted power supply, providing reliability and peace of mind for all production needs. The facilities offer a fully immersive environment for creativity, ensuring that every rehearsal and production is elevated to its full potential.

Revolutionizing Live Entertainment

Known for supporting top entertainers with premier production services, Gateway Studios & Production Services is an integral part of reshaping how fans experience live music. By combining cutting-edge technology with unparalleled expertise, GSPS is committed to enabling artists to push creative boundaries.
